

Model PB-150

An out standing water heater. It operates under the same principles as any other boiler, but it is wood pellet or corn fired.

Whether you're replacing an old system, starting from scratch or adding to an existing system, this boiler is the one for you.

Tested to CAN / CSA B366.1-M91 (R2002) ASTM E1509-04.

SPECIFICATIONS PB-150		STANDARD FEATURES
BTU Input	85,000 or 130,000 BTU/HOUR	Domestic Hot Water Coil
Overall Efficiency	80%	Triple Aquastat
Approx. Heating Capacity	2000 - 4000 sq. ft.	Safety Relief Valve 535000 BTU/HR 30 PSI
Height	46"	Hydronic Water Pump
Width	37"	Safety Disc Lockout
Depth	21"	Temperature / Altitude Gauge
Hopper Capacity	160 lbs standard	National Board Stamping
Weight	585 lbs	Low Water Cut-Off Switch
Flue Size	4" Pellet Vent	
Breach	Top Left	
Supply Tapping	1.25" N.P.T.	
Return Tapping	1.25" / 1.25" N.P.T.
